

Pilgrim's Projects (Immediate Needs)

Just as home ownership comes with a never-ending list of projects, so does caring for our congregational home at Pilgrim. We have immediate, interim, and into-the-future projects that we hope to attend to between 2022-2025 to advance our ministry. Find out how you can be involved!

Immediate Projects

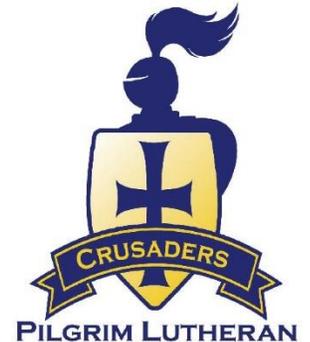

Gate for back parking lot (\$5,000)

New copy machines for the office (\$20,000)

Narthex Women's Bathroom Repair (\$4,000)

Sanctuary Furnishing Updates (\$5,000)

Computer Updates (\$6,000)

A **gate** for the back parking lot is desired to enhance security. During our last school accreditation visit, it was determined that this is a challenge that Pilgrim should address. Security challenges have been noted this year in two ways: first, not having that area gated off makes an easy escape for balls and little children into the street; second, the open parking lot has become attractive to commuters which is not conducive to our children using the playground. This is the last remaining item to be accomplished from our NLSA to-do-list.

Both office **copy machines** have had many service calls and we have been informed they need to be replaced. The copy machines are used for both church and school purposes and have made almost 500,000 prints this year alone!

The **women's bathroom** near the main entry has a needed stall repair that is keeping one stall from being available.

Updating the **furnishings** in both sanctuaries, including the altar cloths, paraments (seasonally colored worship decorations), stoles, and other similar elements in the Green Bay and Suamico buildings will enhance the worship experience.

We have begun necessary **computer updates** and replacements of our equipment which is 15+ years old. Continuing to update more computers in the church and school offices is necessary, and the \$6,000 in this category is to pay for computer needs from this fall. This is part of the larger IT plan in our Pilgrim's Projects, which includes special gifts and planned IT budgeting in future years.

Each of the above "Immediate" projects are things that are, as the title implies, projects that need to be completed as soon as possible. Please consider supporting any or all of these projects with a gift in December 2022.

Pilgrim's Projects (Interim and Into-The-Future Needs)

Just as home ownership comes with a never-ending list of projects, so does caring for our congregational home at Pilgrim. We have immediate, interim, and into-the-future projects that we hope to attend to between 2022-2025 to advance our ministry. Find out how you can be involved!

Interim Projects

Office/Classroom Remodel

Suamico Carpet Project

Suamico Projection System

Into-The-Future

Future Facilities Fund

HVAC Updates

New Roof at Suamico

Suamico Internet and Network Setup

IT Expenses

The above listed projects are other things which are coming in the foreseeable future. The urgency on these projects varies, and the exact details of each are not yet finalized. These projects will have a wide range of cost.

The projects in the "Interim" category are things that we anticipate as possibilities in the next 3-9 months. The projects in the "Into-The-Future" category are longer range necessities.

Please consider supporting any or all of these projects in your prayers and gifts as the direction and cost becomes clearer. More information will be publicized on each of these projects in the coming year.

To help with Pilgrim's Projects, you may make a special donation using the designated envelope, on the [e-giving website](#), at the office, or by simply placing a check in the offering plate with a note in the memo line.
